

Arts Conservatory For Teens

# TEENS EMPOWERED TODAY

## NEW PROGRAM FOR GIRLS

**ABOUT OUR PROGRAM:** Teens Empowered Today (TET) is our afterschool program that focuses on college and career preparation as well as workforce development. Our students experience a series of career master classes with world renowned executives, thought leaders and creative developers. In addition, students receive small group coaching in money management, leadership, entrepreneurship and healthy living. Girls learn how to advocate for themselves and become independent thought leaders.

## EMPOWER, INSPIRE, EDUCATE, JOBS, INTERNSHIPS & OPPORTUNITIES, LEADERSHIP DEVELOPMENT

The primary focus of our TET program is to inspire a growth mindset and advanced thought process for our students. We are able to accomplish this goal by creative strategy - aligning our students with some of the industry's top corporations and businesses through our shadowing for a clear path to the highest level of development.

Our students meet twice each week for intensive trainings, health coaching (mind, body and soul) in preparation for discovering their best self for their highest level of performance in all their learning efforts. If you and your child are looking for invigorating, innovative and creative elevation, TET is the workshop in which you must enroll.

- Teens Ages 11-18
- Transportation Provided
- Program meets at Enoch Davis Center
